Review exercise 8

③ Draw The following point on the graph paper.

$(-3, -3)$

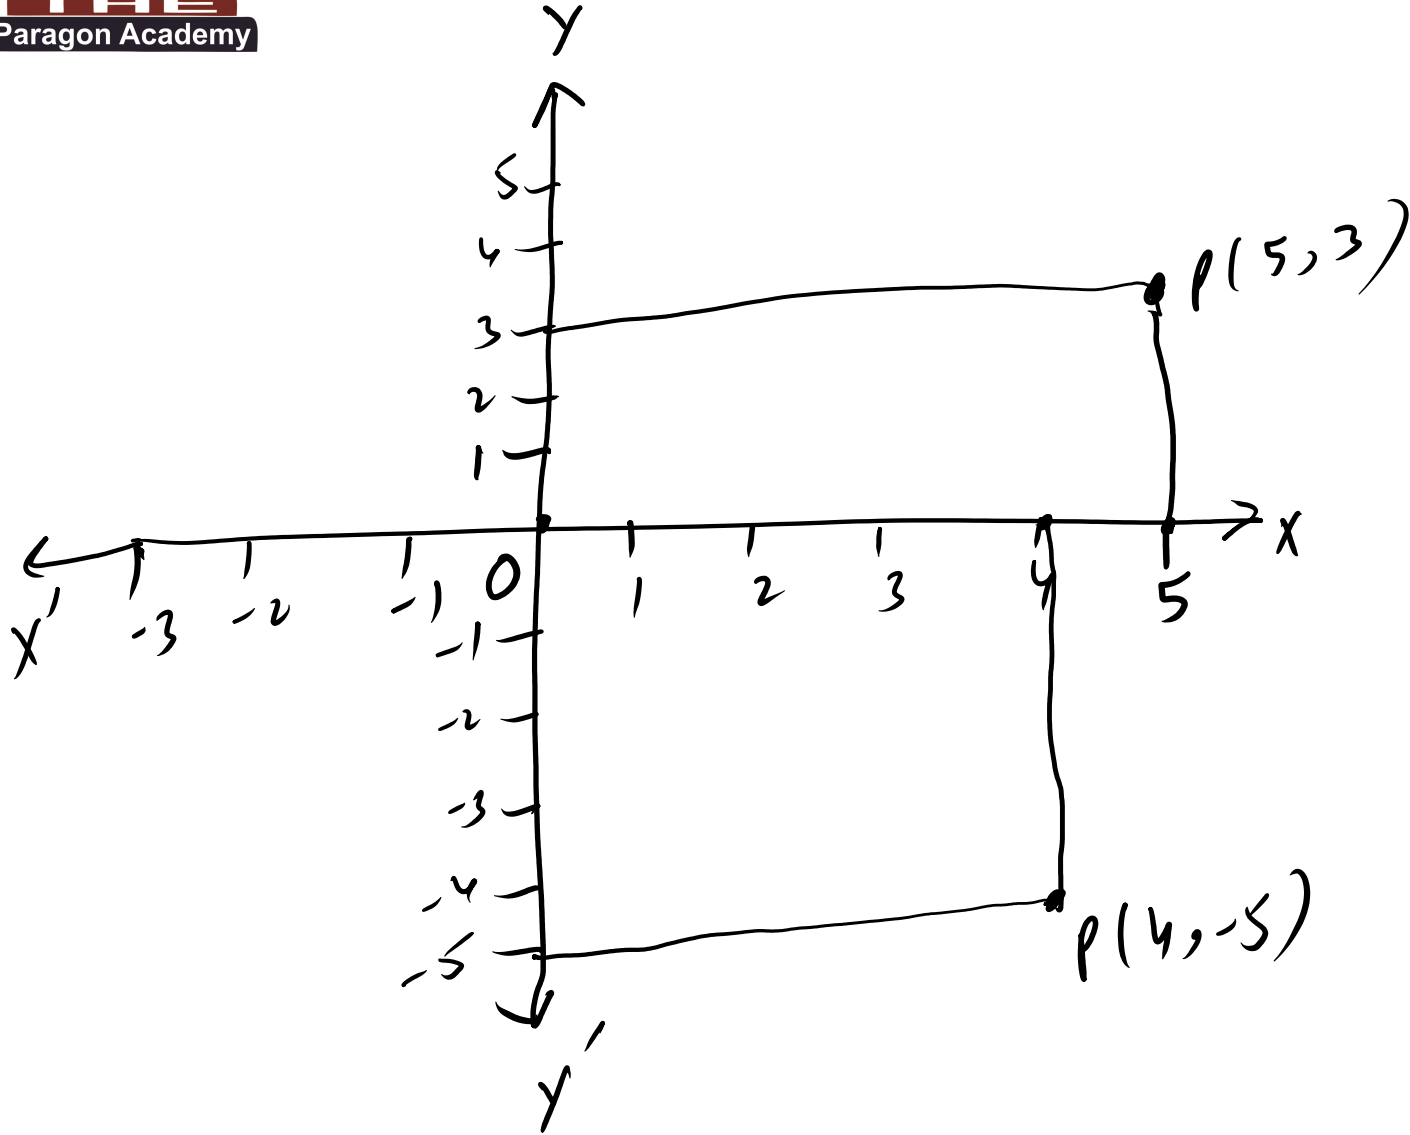

$(-6, 4)$

③

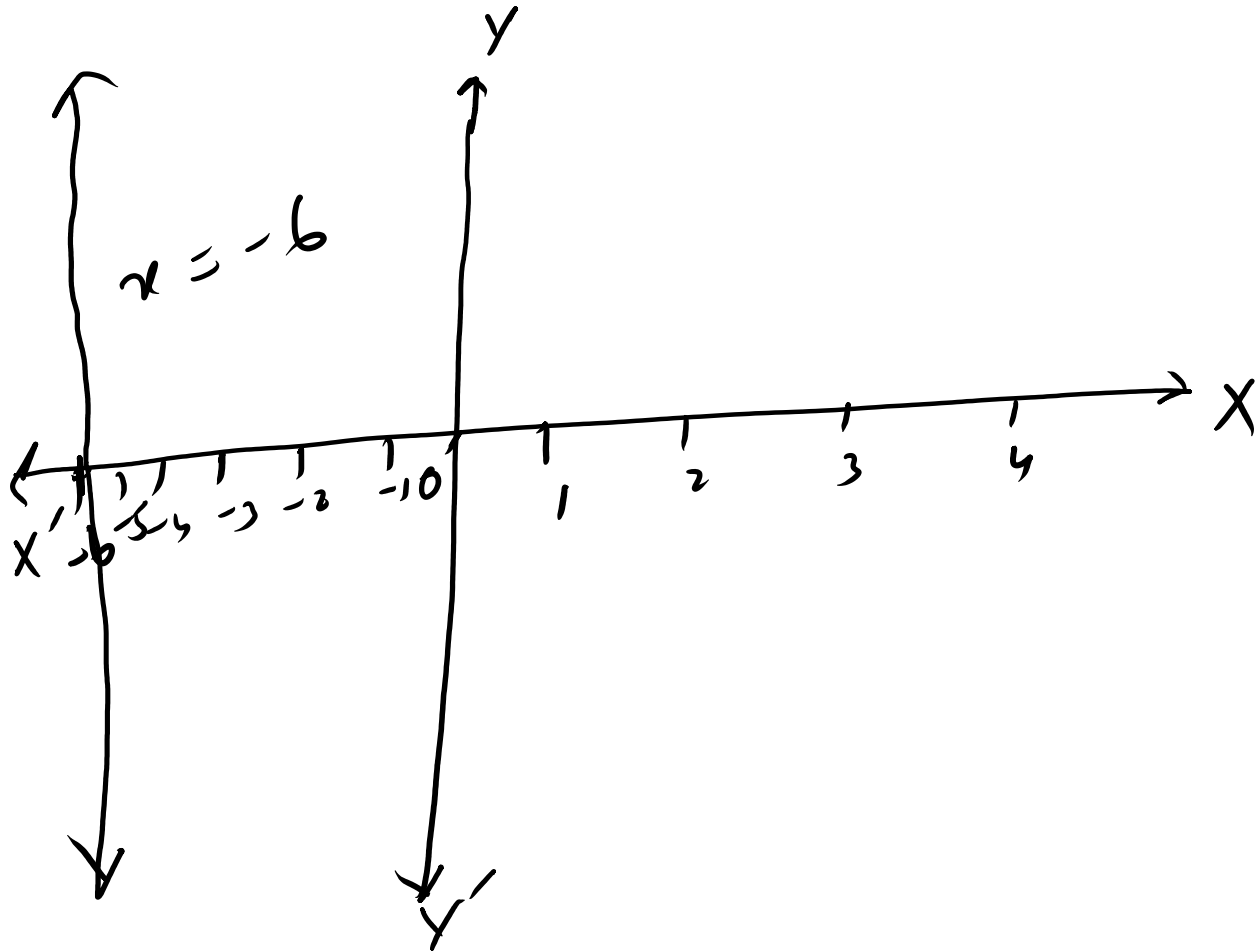

$(4, -5)$

$(5, 3)$

(4) Draw the graph of the following →

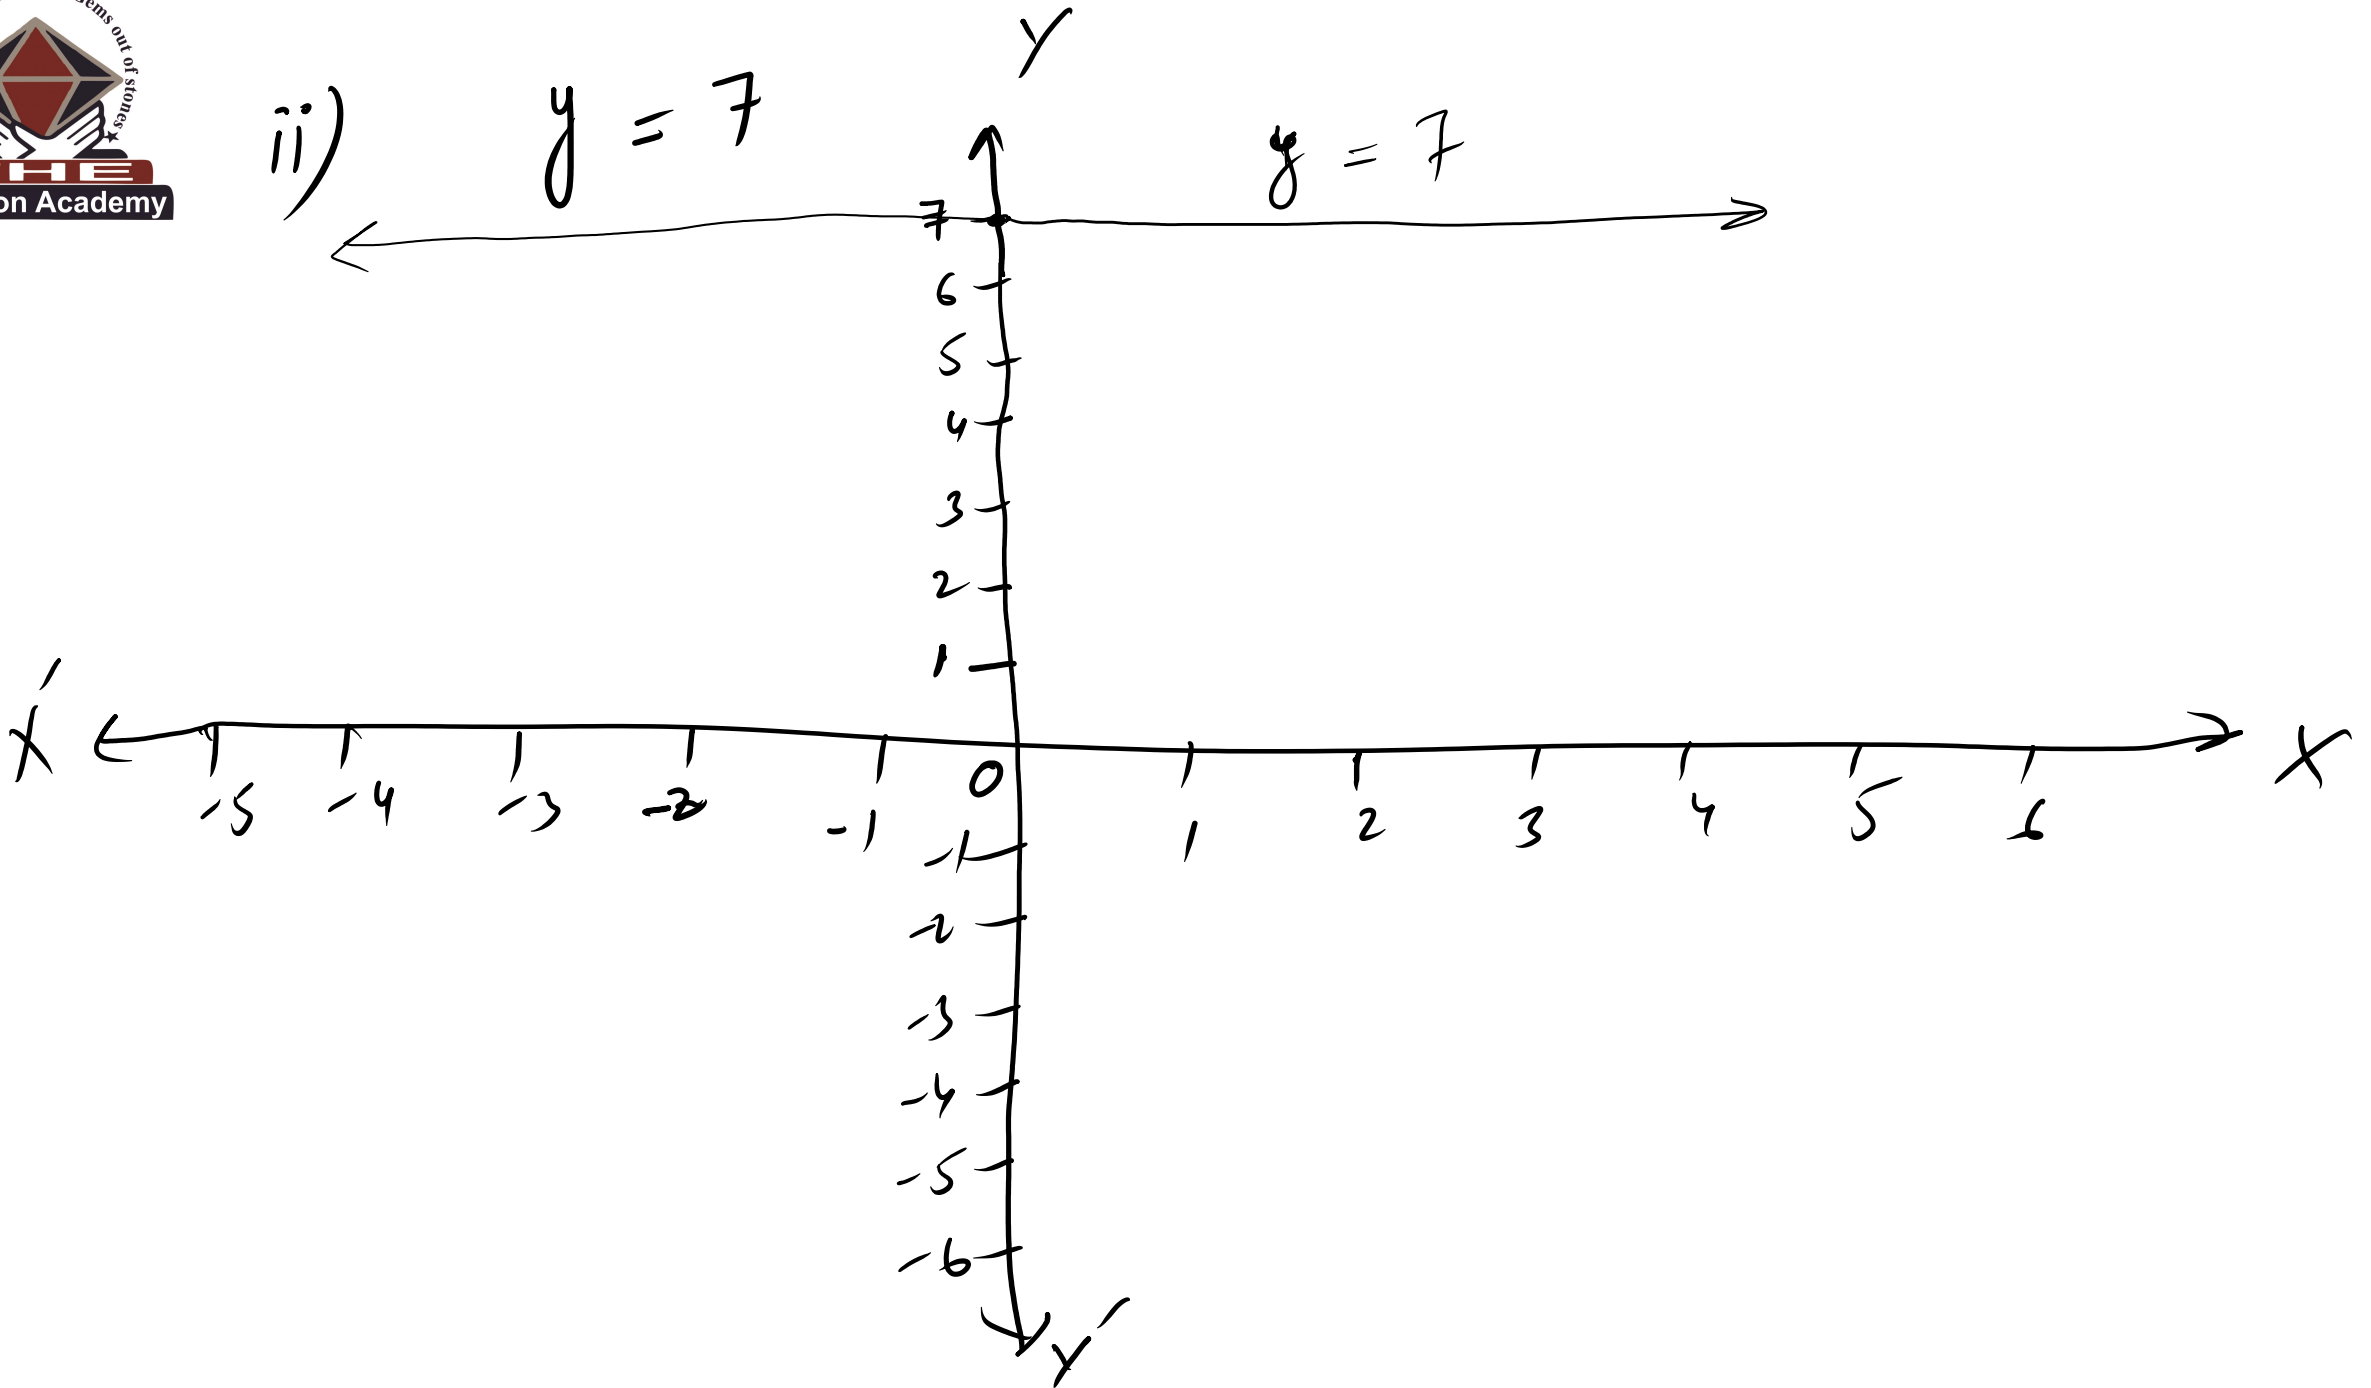

(i) $x = -6$

ii)

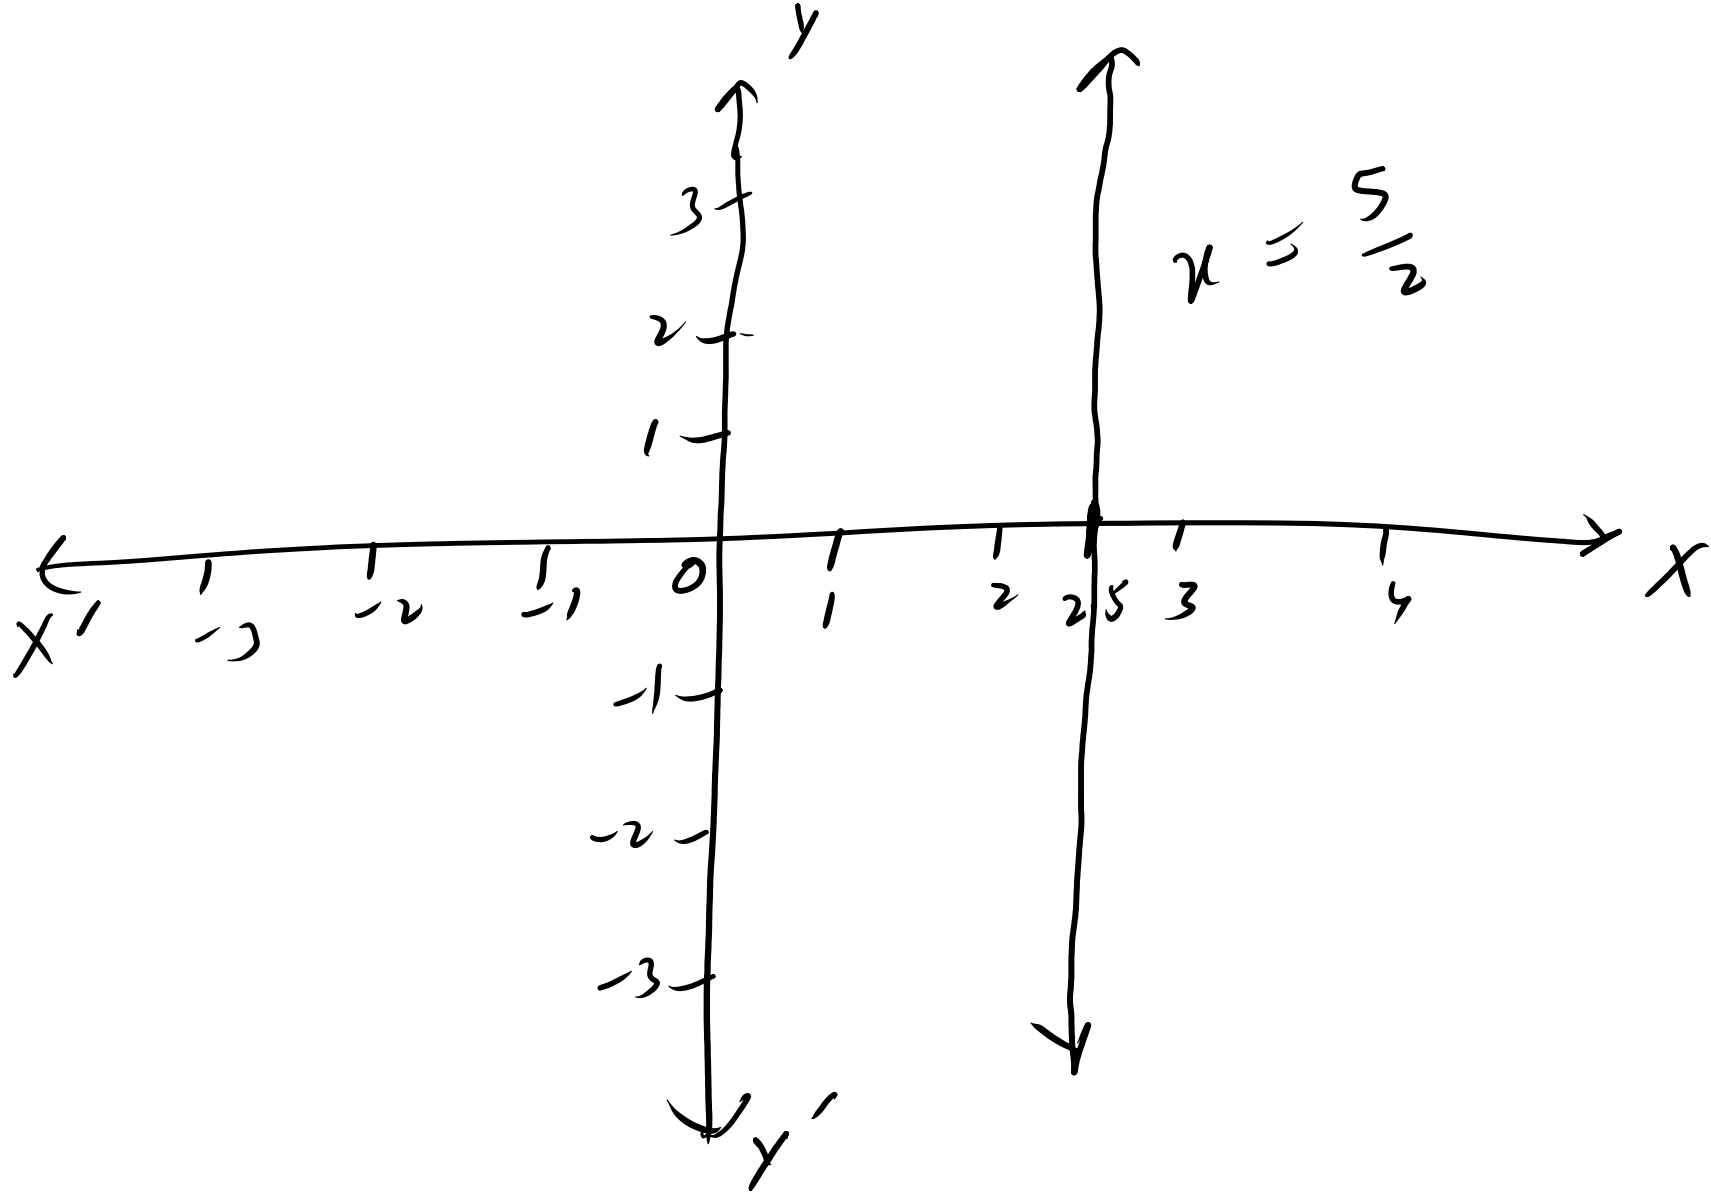

$$y = 7$$

$$y = 7$$

iii)

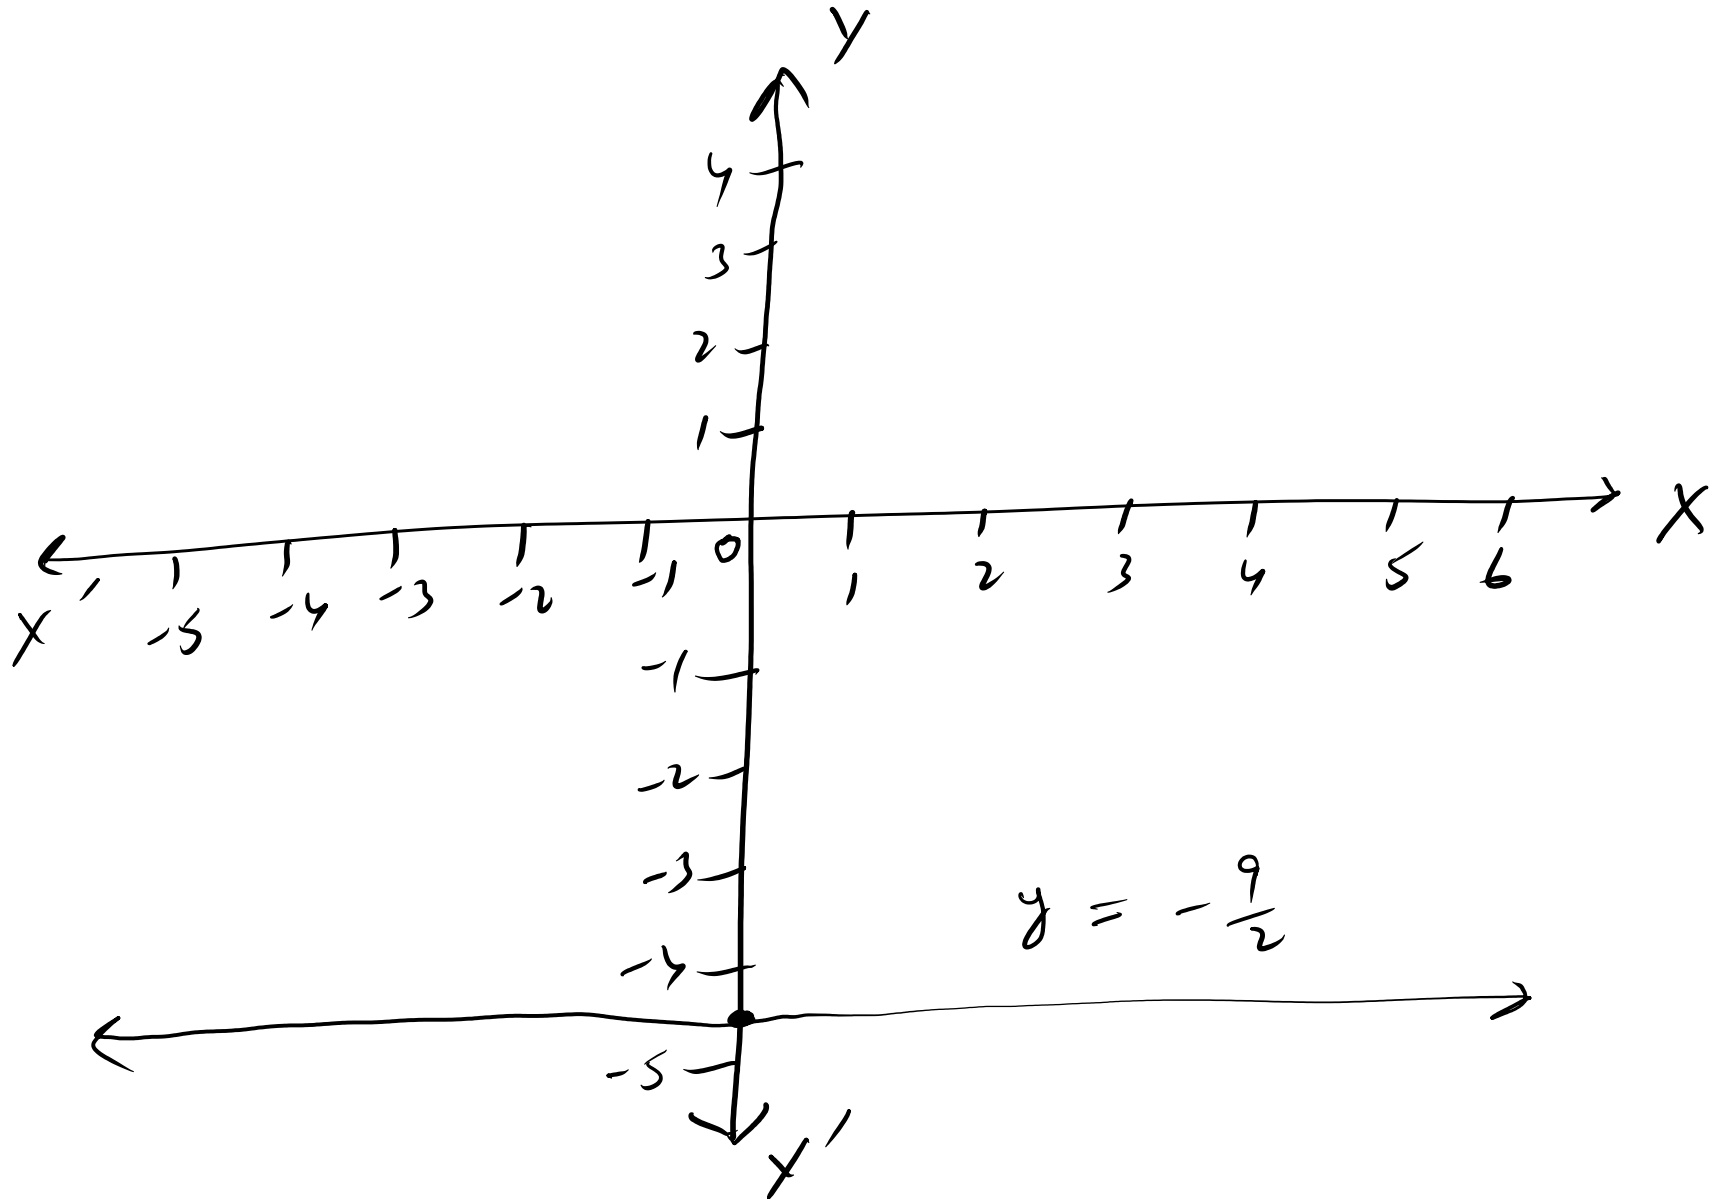

$$x = \frac{5}{2}$$

iv)

$$y = -\frac{9}{2}$$

$$-4.5$$

Summary

ordered pair منترتب جوڑا
Cartesian plane کارٹیسین صافی
origin مبدا

Co-ordinate plane

Co-ordinate plane is divided in 4 quadrants

X-coordinate of a point abscissa

Y-coordinate of a point
is called ordinate

سہ خطوں نقاط
collinear point: A set
of points which lie on
the same line are
called collinear points.
