- 1 Drug addiction is a common problem all over the world today. There are many forms of drug addiction, but the most dangerous of all is the absolute dependence on it. Long-term use of drugs causes permanent mental and physical sickness. The more dangerous a substance is used the more risky it becomes. Its continuous use causes total dependence on the drug.
- 2 The most important measure to be taken in this regard is the rehabilitation and recovery of a drug addict. In many countries, including Pakistan, addicts, their families and friends consider it a taboo to share their problem with others. They feel embarrassed to talk about it for fear of being declared an outcast. This not only makes the cure difficult but in most cases the addicts die due to lack of timely treatment and counseling.
