Translate into Urdu: (10)

- 1 Noise pollution causes not only environmental damage but it also has a negative impact on human health. It can cause aggression, hypertension, high stress levels, hearing loss, restlessness, depression and insomnia. insomnia can further lead to anxiety, bad temper and emotional stress. In addition, noise pollution can seriously effect the learners. This gives them unnecessary mental and physical tension.
- 2 Another source of noise pollution in urban areas is the work on construction sites. Constructions work in urban areas is usually slow and time-consuming. The transport and equipment used at construction sites, its grilling and piercing sound is a big source of noise pollution. It not only disturbs the general public but also effects construction works by causing mental fatigue.
